BY INVESTING IN BOTH INVEST IN MULTIBAGGER AND VALUE PICK STOCKS

	MULTIBAGGER STOCKS	VALUE PICK STOCKS
Meaning	Untapped Small Cap and Mid cap stocks that are expected to turn into large cap or blue chip stocks.	Beaten down large cap/ blue chip stocks (famous well known companies).
Investment rationale	<p>Good business that are in high growth period. In beginning of uptrend.</p> <p>MULTIBAGGER STOCKS COULD CONVERT THOUSANDS INTO LACS AND EVEN CRORES.</p> <p>After rising by 5-10x these stocks comes in lime light. Our buying price becomes dream price and stocks become dream stocks.</p> <p>Even a single multibagger stock can change your destiny. Then think what miracle a portfolio of multibagger stocks can do.</p> <p>They give capital appreciation through price rise and high dividend yield as price shoots up in few years.</p>	<p>Good business available on discounted rates as oversold and undervalued.</p> <p>Select best stocks from jumble of stocks in falling market.</p> <p>&</p> <p>Hunt undervalued stocks even in overvalued (rising) market.</p> <p>Benjamin Graham, Warren buffet and many other successful investors all work on the principle of Value investing, they enter the stocks on huge fall.</p> <p>Buy blue chip stocks on lower levels and earn high dividend yield and make strong portfolio on best prices.</p>
Risk-Return	<p>High capital appreciation and high risk.</p> <p>Bought on higher side and gets filtered on Corrections as they throw weaker ones out and you remain only with (survival of fittest) best for again spring to blast in next move of 100-1000% and this cycle goes on.</p>	<p>Medium risk with Medium returns.</p> <p>Even though they will not rise like page industries (multibagger socks) they are minimal chances of such stocks to leave uptrend.</p>

Note: Dividends in the hands of investors are tax free (till Rs. 10 lacs)

▪ **Why to invest together in both multibagger and Value Pick both stocks:**

We always suggest our clients to invest in stocks of both categories and make diversified portfolio

1. **Risk return: MEDIUM RISK- HIGH RETURN**

It will diversify portfolio in high growth (i.e. Multibagger) companies and high market share (i.e. Value Pick) companies.

2. **TAKE THE BENEFIT OF BOTH FALLING AND RISING MARKET:** To enter in ongoing trend (i.e. Multibagger) and to enter even on corrections (i.e. Value Pick).

3. **10% off** is provided if minimum two packages are subscribed together.

4. Dual benefit of high growth of capital (through price appreciation in multibagger) and regular source of income (high dividend yield in Value Pick) .

▪ **Suitable for ?**

For persons who want to earn **huge wealth** and also want to achieve **financial freedom** from stock market and ready to invest for **long term** by taking calculated risk for it.

Goal is not to increase accuracy by making all stocks profitable but the goal is to convert small amount into big wealth by investing in right stocks and to sit with patience in it. Even though few calls may go wrong but the stocks that will rise will shoot up your wealth.

There is well known [wipro story](#) of how it converted **Rs.10,000 into 584 crores**, we are working on same funda. Thinking it impossible or difficult people just keep talking about these stories but don't think to build wealth like this.

There are many successful investors who has made millions and billions from stock market. Some of them are

Science says given a long enough lever even a single man can lift the earth.

Investing Science says that given enough time even

SMALL INVESTMENTS CAN ACHIEVE BIG DREAMS
 (you can achieve your big dreams even with as low as Rs.10,000)

Have a look at how small amount invested every month can get bigger and bigger the more time you invest for it.

Your monthly Investment	Your Investment after			
	10 years	15 years	20 years	25 years
Rs. 5000	14.8 lacs	37.4 lacs	87.4 lacs	1.9 cr.
Rs. 10,000	29.6 lacs	74.8 lacs	1.7 cr.	3.9 cr.
Rs. 20,000	59.2 lacs	1.4 Cr.	3.4 Cr.	7.9 Cr.

Rate of return considered is 15% which is less than average rolling return of sensex

Multibagger and Value pick portfolio could give you returns ranging from 25-45% p.a. (compounded returns).

Just imagine where your wealth will reach.

Investment horizon:

Long term calls are given i.e. for minimum 3-4 years.

Part profit is booked if stock rises nearly 50-60% or so and rest of the position remains open in market till again some big story change comes in it. We may remain invested lifelong in many stocks and you must

If you are born poor, its not your mistake

be lucky enough to transfer this huge wealth to your coming generations.

Booking part profit reduces costing and slowly and slowly withdraws all invested capital from the market. So only profit amount will be left in market.

In long term you will see the magic of compounding that will shoot up your wealth.

Anyone can buy falling expert then why we need expert?

2 Reasons:

1. Stock may look attractive after fall of 35% but it may have strong support after fall of 50% or its valuation will get attractive only after fall of 55% or in some cases it may become attractive only after fall of 20% and may never from there and you may be waiting for more fall. So after how much fall stock becomes attractive is work of expert.

2. Stock may have given good fall, like fall of 60-70% from higher side but then also it may not be worth buying because of changed fundamentals. So which stock is worth buying is also work of expert. We often get inquiries from people, asking us about the future of Suzlon, JP Associate and many other stocks. But no one knows when these stocks would be back in charm. Each year many companies get delisted many companies existence gets finished each year.

Buy low and sell high.
It's pretty simple.
The problem is
knowing what's
low and what's high.

Jim Rogers
